Linda Sayers

Health and Social Care Experience

Linda started her pre-qualification career in residential care settings for adults (with dementia) and children (with complex needs). Qualifying as a social Worker in the 1980's, Linda worked for many years within child safeguarding as a Practitioner, Manager and latterly as Guardian ad litem. A keen and lifelong learner, Linda also has qualifications in Learning and Development and HR Management. All of this came together when in 2006 she became a senior manager at Anglia Case Management - a brain injury case management company working throughout the East of England. Whilst Registered Manager there, Linda led the company to 2 outstanding CQC inspections. Over the latter years she worked alongside the 9 other case management companies within the Active Care Group (who own ACM) taking a key role in integrating and developing quality and governance systems, safeguarding consultancy, and training.

Training, Consultancy and Supervisory Experience

Linda has been involved in the training and development of others since her early days of working in social services and has developed and ran training courses for staff / volunteers and members of the public at all levels within statutory, charitable, and private settings. She is a regular speaker at Webinars and Conferences.

Over recent years Linda, has alongside her very person centred clinical work, primarily focused on Safeguarding Training and Consultancy, staff supervision and mentoring (at all

levels within a company). Linda is very committed to her own CPD and still sees every day as a school day.

Since setting up Sayers Social Care Consultancy in June 2021 Linda has worked hard to get her carefully designed Level 3 (one day) and Level 4 (two day) Safeguarding Courses accredited by the CPD Certification Service. As well as working with those working in the Private Sector (predominantly Case Management, Rehabilitation and Complex Care) Linda regularly works alongside Local Authority Social Workers in safeguarding consultancy and training roles.

In her free time Linda loves spending time with family and friends and can often be found travelling with her dogs in her campervan, Kayaking, Paddleboarding or open water swimming. All these activities allow for rest and refreshment and excellent thinking time.
